### Publicering eller sändningsdatum

2024-05-04

### Skäl till anmälan

The journalist took my picture (Wilson) and my healthy trees and used it to deceive the world that I am starving. He also took a picture of our banana plantation and again used it to misinform the public that this is a picture of my neighbor. Information given to this journalist was deliberately misconstrued, twisted and misreported to depict an untrue situation.

The journalist abused our hospitality – we admitted him into our homes, shared our success stories with him only him to twist every thing upside down. We feel duped, cheated and disrespected

The journalist is using a derogatory term – ‘Hunger Forest’ to describe our agroforestry system. This is demeaning of the way we have chosen to live our lives
